Re: OES Scoreboards

We recently purchased 2 scoring tables from OES Scoreboards for the KW TITANS franchise of the National Basketball League of Canada, and we would like to confirm our overwhelming satisfaction.

The product meets the highest quality standards, and is very easy to use, requiring a very small learning curve. It looks and functions very well, and adds a high degree of professionalism to our basketball games.

What was equally impressive was the customer service we experienced with their sales representative, Dana Plant. The prompt and helpful service we experienced is something increasingly rare in the industry.

We would not hesitate to recommend OES to any organization considering purchasing any of their products. Please contact me with any questions.

Yours truly,
