

SCORING TABLE

Render sponsor messages and game statistics with stunning clarity at your next indoor event. OES's scoring tables give you the perfect venue for increasing fan engagement - while increasing revenue.

Choose an 8' or 10' table, or connect them to create one custom length high-impact display surface.

Lexan face is standard and helps protect your investment.

Manage your media and customize what gets displayed with OES' Bolt software. Bolt gives you command of your scoring table's content with flexible positioning and easy-to-program animations for maximum impact.
