

Scoring Tables

Light up your sidelines!

Want to captivate your audience like the pro leagues? Render sponsor messages and game statistics with stunning clarity at your next indoor event. OES's LED scoring tables give you the perfect platform for increasing fan engagement, while increasing revenue.

Connect tables to create one custom length high-impact display surface. A poly-carbonate face is standard and helps protect your investment.

Managing your media is blissfully straightforward when you customize your on-screen content with OES' Bolt software. Bolt gives you control of your scoring table's image/video capabilities with flexible positioning and easy-to-program animation for maximum impact. Static and backlit ad panels available.
